

COUNTY LOCAL LAWS

ON-SITE UTILITY CONTRACTOR'S LICENSE:

This license shall be issued to an official of a company, firm and or corporation who installs on-site sewer, water and storm drainage facilities from connections at the property line to within five feet of any newly constructed improvement on such property and who is entitled to secure permits for such work. He shall have a regular place of business in the State of Maryland, and be a citizen of the United States and shall be qualified as provided in section 23-8 of this title.

DISPOSAL SYSTEM CONTRACTOR'S LICENSE:

This license shall be issued to a person who installs private disposal systems composed of septic tanks, seepage pits, filtering beds, distribution boxes and drain fields, and who is entitled to secure permits for such work. He shall have a regular place of business in the State of Maryland and must be a citizen of the United States and shall be qualified as provided in this Title.

WATER PUMP CONTRACTOR'S LICENSE:

This license shall be issued to a person who installs water pumps in wells, springs and cisterns, who is authorized to connect such pumps to the water system of any building used for human occupancy, and who is entitled to secure permits for such work. He shall have a regular place of business in the State of Maryland, must be a citizen of the United States and shall be qualified as provided in this Title.

23-8 Method of Obtaining Licenses:

No person shall be issued one of the foregoing licenses except an Apprentice Plumber-Gasfitter or Apprentice Gasfitter License, until he shall have applied for same on forms as provided by the Board and shall have been examined as to his qualifications therefor in the manner provided herein, except that an application for an On-Site Utility Contractor's License must be accompanied by a current prequalification certificate to perform utility contract work as related to sewer, water and storm drainage for Baltimore County.

23-9 Examinations:

Examinations shall be held at such time and place as the board may direct. The examination shall be in writing unless the Board shall otherwise direct as hereinafter provided. Such examination shall be designed to test his knowledge of the work contemplated to be performed under
